## Party On Your Paper – Painting On Delicious Prepared Surfaces!

Medium: Gel Printing, Transparent Acrylics, Mixed Media, Collage

**Description:** Who doesn't love a great party?! Who doesn't love having complete freedom and fun painting? Using seemingly random, deliciously colorful, and wildly patterned gel printed papers is a recipe for FUN. Painting on top of them? Well, that is a *party on your paper!*

Learn the exciting world of monoprints by using Gel-Press Plates with unusual textural elements on non-traditional surfaces to create layers of FUN! They will use one of these prints as the collaged, prepared surface for the background of their painting.

Learn the exciting process of how Trish creates prepared surfaces with texture, lines, and exciting patterns – the party! - and then paints on top of them. Students will learn the concepts of negative painting, lost and found edges, color theory, and strong design - all one class! So, who wants to have a party?!
